

# HOW TO LEAD: *The Dominator*

## DO'S

## DON'TS

### DO *this*

### ... *Not* THIS

Be honest, assertive

Allow to lead in areas of strength, casting vision for where you hope to go

Model leadership through serving (Mark 9:35)

Confront lovingly, empathetically (sometimes privately); stick up for the dominated

Politely interrupt: "I like what you're saying about ... what do you guys think?"

Stay logical, steady, neutral, direct

Come out stronger for a contest of wills

Let them take over; be passive

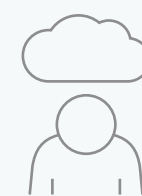

Shy away from humility because you "can't afford to lose ground"

Fail to expose how their behavior affects others

Surrender when they're passionate, allow to consistently interrupt

Get emotional, insecure, overapologetic, or consistently allow denial of behavior
